Sixteen bright students from Dutch universities are invited to enrol themselves for this exciting entrepreneurship and international business skills project. These promising students will join us and organise a trip to the east corridor of entrepreneurship; Boston, New York and Toronto.

The students ( The16) fund the trip themselves, tapping into their entrepreneurial skills from the start! The [Dutch Centers for Entrepreneurship](http://DutchCentersforEntrepreneurship) and [handelsroute.nl](http://handelsroute.nl) are the founding partners in this project and will support The16 preparing and executing a successful trip.
